53 nutritional information as required by paragraph (2), or comply with subdivision (c) during this period of
54 time.

55 (2) (A) In order to comply with paragraph (1), a food facility that does not provide sit-down service shall
56 disclose the information in a clear and conspicuous manner on a brochure that is made available at the
57 point of sale prior to or during the placement of an order. A food facility that provides sit-down service
58 shall provide the nutritional information in a clear and conspicuous size and typeface on at least one of
59 the following:

67 area only, disclose the nutritional information in a clear and conspicuous manner on a brochure that is
68 available upon request, and shall conspicuously display a notice at the point of sale that reads:
69 "NUTRITION INFORMATION IS AVAILABLE UPON REQUEST" or other similar statement that indicates the
70 disclosure of nutrition information is available upon request.

71 (c) (1) On and after January 1, 2012, every food facility that provides a menu shall disclose calorie
72 content information for a standard menu item next to the item on the menu in a size and typeface that
73 is clear and conspicuous.

74 (2) On and after January 1, 2012, every food facility that uses an indoor menu board shall disclose
75 calorie content information for a standard menu item next to the item on the menu board in a size and
76 typeface that is clear and conspicuous.

77 (3) On and after January 1, 2012, every food facility that uses a display tag as an alternative to a menu or
78 menu board to describe a standard menu item that is displayed for sale in a display case within the food
79 facility shall disclose calorie content information for that standard menu item on the display tag for that
80 item in a size and typeface that is clear and conspicuous.

81 (4) On and after January 1, 2012, every food facility that has a drive-through area and uses a menu
82 board to display or list standard menu items at the point of sale shall, for purposes of the drive-through
83 area only, disclose the nutritional information for each standard menu item in a clear and conspicuous
84 manner on a brochure that is available upon request, and shall clearly and conspicuously display a notice
85 at the point of sale that reads: "NUTRITION INFORMATION IS AVAILABLE UPON REQUEST" or other
86 similar statement that indicates the disclosure of nutrition information upon request. If a food facility
87 subject to this paragraph discloses nutritional information in the manner described in subparagraph (B)
88 of paragraph (2) of subdivision (b), the food facility shall be deemed to be in compliance with this
89 paragraph.

90 (d) For purposes of subdivision (c), the disclosure of calorie content information on a menu or menu
91 board next to a standard menu item that is a combination of at least two standard menu items on the
92 menu or menu board, shall, based upon all possible combinations for that standard menu item, include
93 both the minimum amount of calories for the calorie count information and the maximum amount of
94 calories for the calorie count information. If there is only one possible total amount of calories, then this
95 total shall be disclosed.

96 (e) For purposes of subdivision (c), the disclosure of calorie content information on a menu or menu
97 board next to a standard menu item that is not an appetizer or dessert, but is intended to serve more
98 than one individual, shall include both of the following:

99 (1) The number of individuals intended to be served by the standard menu item.

100 (2) The calorie content information per individual serving. If the standard menu item is a combination of
101 at least two standard menu items, this disclosure shall, based upon all possible combinations for that
102 standard menu item, include both the minimum amount of calories for the calorie count information
103 and the maximum amount of calories. If there is only one possible total amount of calories, then this
104 total shall be disclosed.

105 (f) The nutritional information and calorie content information required by this section shall be
106 determined on a reasonable basis. A reasonable basis determination of nutritional information and
107 calorie content information shall be required only once per standard menu item, provided that portion
108 size is reasonably consistent and the food facility follows a standardized recipe and trains to a consistent
109 method of preparation.

110 (g) Menus and menu boards may include a disclaimer that indicates that there may be variations in
111 nutritional content across servings, based on variations in overall size and quantities of ingredients, and
112 based on special ordering.

113 (h) This section shall not be construed to create or enhance any claim, right of action, or civil liability
114 that did not previously exist under state law or limit any claim, right of action, or civil liability that
115 otherwise exists under state law. No private right of action shall arise out of this chapter. The only
116 enforcement mechanism of the section is the local enforcement agency.

117 (i) This section shall not be construed to preclude any food facility from voluntarily providing nutritional
118 information in addition to the requirements of this section.

119 (j) To the extent consistent with federal law, this section, as well as any other state law that regulates
120 the disclosure of nutritional information, is a matter of statewide concern and occupies the whole field
121 of regulation regarding the disclosure of nutritional information by a food facility as well as content
122 required to be posted on menus, menu boards and food tags. No ordinance or regulation of a local
123 government shall regulate the dissemination of nutritional information or the content required to be
124 placed on menus, menu boards or food tags by a food facility. Any ordinance or regulation that violates
125 this prohibition is void and shall have no force or effect.

126 (k) Commencing July 1, 2010, a food facility that violates this section is guilty of an infraction, punishable
127 by a fine of not less than fifty dollars (\$50) or more than five hundred dollars (\$500), which may be
128 assessed by a local enforcement agency. However, a food facility may not be found to violate this
129 section more than once during an inspection visit. Notwithstanding Section XX, a violation of this section
130 is not a misdemeanor.

131 (l) Within 180 days after the enactment of this section, the Massachusetts Department of Public Health
132 shall promulgate regulations defining the specific requirements that constitute substantial compliance
133 with this section by food facilities.

134 (m) If any provision of this section or the application thereof is for any reason held invalid, ineffective, or
135 unconstitutional by a court of competent jurisdiction, the remainder of this section shall not be affected
136 thereby, and to this end, the provisions of this section are severable.
