The Commonwealth of Massachusetts

In the Year Two Thousand and Nine

AN ACT TO REDUCE HEALTHCARE - ASSOCIATED INFECTIONS. .

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Section 51H of chapter 111 of the General Laws is hereby amended by adding the following
2 subsection:—

3

4 (e) The Department of Public Health shall promulgate regulations requiring Methicillin-Resistant
5 Staphylococcus Aureus (“MRSA”) screening of high-risk patients, as defined by the department, upon
6 admission to a healthcare facility. The department definition of high-risk patients may include the
7 following:

8

9 (1) The patient has documented medical conditions making them more susceptible to infection
10 and is scheduled for an inpatient surgery.

11 (2) The patient has been documented as having been previously discharged from a general
12 acute hospital within the past 30 days prior to the current hospital admission.

13 (3) The patient is being admitted to either the intensive care unit or the burn unit within the
14 healthcare facility.

15 (4) The patient receives inpatient dialysis treatment.

16 (5) The patient is being transferred from a nursing facility.

17

18

19 When MRSA is identified, the healthcare facility shall notify the patient and establish necessary
20 precautions as determined by the department including but not limited to:

21 (1) Isolation of identified MRSA-colonized or MRSA-infected patients.

22 (2) Monitoring and strict enforcement of hand hygiene requirements with MRSA-colonized or
23 MRSA-infected patients.

24

25 Healthcare facilities shall report data and information about MRSA-colonized or MRSA-infected patients
26 to the department and the Betsy Lehman Center for Patient Safety and Medical Error Reduction.
27 Reports shall be made in the manner and form established by the department in its regulations.
