

HOUSE No.

The Commonwealth of Massachusetts

PRESENTED BY:

Christopher N. Speranzo

To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:

The undersigned legislators and/or citizens respectfully petition for the passage of the accompanying bill:

An Act to minimize health care costs.

PETITION OF:

NAME:

Christopher N. Speranzo

DISTRICT/ADDRESS:

3rd Berkshire

The Commonwealth of Massachusetts

In the Year Two Thousand and Nine

AN ACT TO MINIMIZE HEALTH CARE COSTS.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1: Chapter 3 of the General Laws, as appearing in the 2006 official edition, is hereby
2 amended by inserting after section 38C the following new section

3 Section 38D.(a) Joint Committees of the General Court and the House and Senate Committees on Ways
4 and Means when reporting favorably on bills that will require a new operational or reporting requirement
5 on health care providers, who are licensed under Chapter 19, Chapter 111, Chapter 112, and Chapter 123,
6 shall include an evaluative report prepared by the Executive Office of Health and Human Services
7 pursuant to this section. Operational or reporting requirements shall include, but not be limited to, any
8 bills that require a healthcare provider to undertake new service or cost obligations for operations or
9 reporting of data related to utilization, finances, or clinical processes or outcomes, or to establish, expand
10 or modify any existing operations or reporting activities. The evaluative report, which shall be a public
11 document, shall include, at a minimum, the following:

- 12 (1) the financial impact of the new requirement on all parties affected by the proposal;
- 13 (2) whether any data required by the proposal is already collected by any state agency or any other public
14 or private source;
- 15 (3) whether there is a specific need for governmental intervention that is clearly identified and precisely
16 defined;
- 17 (4) whether the costs of the proposal exceed the benefits that would be effected by the proposal;

18 (5) whether less restrictive, less intrusive and less costly alternatives are available to achieve the desired
19 outcome of the proposal;

20 (6) whether a process and schedule can be established to measure the effectiveness of the proposal; and

21 (7) whether the proposal can be time-limited and reviewed on a regular basis.

22 (b) All interested parties supporting or opposing the proposed operational or reporting requirements may
23 provide the Executive Office of Health and Human Services information relevant to the Executive
24 Office's review. The Executive Office may enter into interagency agreements as necessary with other
25 state agencies holding data, including cost and utilization data, relevant to the Executive Office's review
26 under this section. The Executive Office of Health and Human Services may, after consultation with all
27 parties that would be affected by such health care provider operational or reporting requirements, contract
28 with independent consultants as necessary to complete its analysis.

29 SECTION 2: Section 16 of Chapter 6A, as so appearing, is hereby amended by inserting at the end
30 thereof the following new paragraph:

31 Sixty days prior to the adoption of any new operational or reporting requirement on health care providers
32 licensed by Chapter 111, Chapter 19, Chapter 112, or Chapter 123, the Executive Office of Health and
33 Human Services and its agencies shall provide an evaluative report, which shall be a public document, of
34 such new requirement demonstrating: (a) the financial impact of all parties that will be affected by the
35 requirement; (b) whether any data required by the proposal is already collected by any state agency or any
36 other public or private source; (c) there is a specific need for governmental intervention that is clearly
37 identified and precisely defined; (d) the costs of the proposal do not exceed the benefits that would be
38 effected by the requirement; (e) less restrictive, less intrusive and less costly alternatives have been
39 considered and found less desirable based on a sound evaluation of the alternatives; (f) the agency has
40 established a process and a schedule for measuring the effectiveness of the requirement; and (g) the
41 requirement is time-limited or provides for regular review. Operational or reporting requirements shall
42 include, but not be limited to, any policy, rule or regulation that requires a healthcare provider to
43 undertake any new service or cost obligations or reporting activities, or to expand or modify any existing
44 operations or reporting activities.
