29 in which the agency shall consider utilizing regulatory methods that will accomplish the objectives of
30 applicable statutes while minimizing adverse impact on small businesses. The agency shall consider,
31 without limitation, each of the following methods of reducing the impact of the proposed regulation on
32 small businesses:

33 (1) The establishment of less stringent compliance or reporting requirements for small businesses;

46 SECTION 5. Chapter 30A of the General Laws, as appearing in the 2004 Official Edition, is amended by
47 inserting the following section after section 5:—

48 Section 5A. Periodic Review.

49 Within 4 years of the enactment of this law, each agency shall review all agency rules existing at the
50 time of enactment to determine whether such rules should be continued without change or should be
51 amended or rescinded consistent with the stated objectives of those statutes, to minimize economic
52 impact of the rules on small businesses in a manner consistent with the stated objective of applicable
53 statutes. If the head of the agency determines that completion of the review of existing rules is not
54 feasible by the established date the agency shall publish a statement certifying that determination. The
55 agency may extend the completion date by one year at a time for a total of not more than five years.

56 Rules adopted after the enactment of this law should be reviewed every five years of the publication of
57 such rules as the final rule to ensure that they minimize economic impact on small businesses in a
58 manner consistent with the stated objectives of applicable statutes.

59 In reviewing rules to minimize economic impact of the rule on small businesses, the agency shall
60 consider the following factors:

- 61 (1) The continuing need for the rule;
- 62 (2) The nature of complaints or comments received concerning the rule from the public;
- 63 (3) The complexity of the rule;
- 64 (4) The extent to which the rule overlaps, duplicates or conflicts with other Federal, State, and local
65 governmental rules; and
- 66 (5) The length of time since the rule has been evaluated or the degree to which technology, economic
67 conditions, or other factors have changed in the area affected by the rule.
