

SENATE No.

The Commonwealth of Massachusetts

PRESENTED BY:

Mr. Baddour

To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:

The undersigned legislators and/or citizens respectfully petition for the passage of the accompanying bill:

An Act ensure that nursing home residents are not subject to undue hardship.

PETITION OF:

NAME:

Mr. Baddour

DISTRICT/ADDRESS:

First Essex

[SIMILAR MATTER FILED IN PREVIOUS SESSION
SEE SENATE, NO. S00393 OF 2007-2008.]

The Commonwealth of Massachusetts

In the Year Two Thousand and Nine

AN ACT ENSURE THAT NURSING HOME RESIDENTS ARE NOT SUBJECT TO UNDUE
HARDSHIP.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority
of the same, as follows:*

1 SECTION 1.

2 Chapter 118E of the General Laws is hereby amended by adding after Section 9E, the following

3 Section 9F:

4 Section 9F. Nursing Home Residents' Entitlement to Hardship Relief

5 (1) The Division shall waive a period of ineligibility due to a disqualifying transfer of
6 resources if ineligibility would cause a nursing home resident undue hardship under the
7 following criteria:

8 (a) The denial of MassHealth would deprive the nursing home resident of medical
9 care such that his or her health or life would be endangered or he or she would be deprived of

10 food, shelter, clothing or other necessities such that he or she would be at risk of serious
11 deprivation.

12 (b) All reasonable attempts to retrieve the transferred resources have been
13 exhausted, and the recipient of the transfer is unwilling or unable to return the resources or to
14 provide adequate compensation to the nursing home resident.

15 (c) The nursing home has notified the nursing home resident of its intent to
16 initiate a discharge of the resident because the resident has not paid for his or her care and
17 services provided by the nursing home.

18 (d) There is no less costly non-institutional alternative reasonably available to
19 ensure that the nursing home resident attains or maintains his or her highest practical physical,
20 mental, and psychosocial well-being.

21 (2) In applying the criteria in the preceding subsection (1), the following rules shall
22 apply:

23 (a) The health or life of a nursing home resident shall be deemed to be endangered
24 under subsection (1)(a) if the resident is at risk of not receiving the nursing home services
25 necessary for him or her to attain or maintain his or her highest practical level of physical,
26 mental, and psychosocial well-being.

27 (b) All reasonable attempts to retrieve a transferred resource shall be deemed to
28 be exhausted within the meaning of subsection (1)(b) if (i) the nursing home resident or a
29 guardian or conservator for the nursing home resident certifies in writing that reasonable efforts

30 to retrieve the transferred resource have been unsuccessful, or (ii) the nursing home resident, or
31 his or her guardian or conservator, or family member certifies in writing that the sole trustee of a
32 Medicaid qualifying trust is an individual whose whereabouts is unknown or who is incapable of
33 competently fulfilling his or her fiduciary duties and the resident, guardian, conservator or family
34 member is making a good faith effort to contact the missing trustee or to secure the appointment
35 of a competent successor trustee.

36 (c) To satisfy the criterion in subsection (1)(c), a nursing home shall not be
37 required to issue a formal notice of discharge to a nursing home resident.

38 (d) A nursing home resident shall satisfy the criterion in subsection (1)(d) that a
39 less costly non-institutional alternative is reasonably available to the resident by (a) establishing
40 through a written certification of a licensed health care professional that the resident (i) requires
41 one skilled service daily performed by or under the supervision of a registered nurse or licensed
42 therapist, or (ii) the resident's medical or mental condition is such that the resident requires a
43 combination of one skilled nursing service and services necessary for the resident to perform two
44 activities of daily living; (b) obtaining the written certification of a physician that no community
45 discharge plan safely ensures that the resident will attain or maintain his or her highest practical
46 physical, mental, and psychosocial well-being; or (c) obtaining the written certification of a
47 physician that no community provider is willing to provide services that ensure that the resident
48 will attain or maintain his or her highest practical physical, mental, and psychosocial well-being.

49 (3) An application for hardship relief may be filed by a nursing home resident, his or her
50 legal representative, a family member of the resident, or, with the consent of the resident or his
51 or her personal representative, the nursing home in which the resident resides.

52 (4) The division shall act on a nursing home resident's request for hardship relief within
53 fourteen days from receipt of the request. A nursing home resident shall be entitled to appeal the
54 denial of a request for hardship relief to the division's board of hearings. While a request for
55 hardship relief is pending or is the subject of an appeal to the division's board of hearing, the
56 division shall provide for payments for nursing facility services to the extent permitted by federal
57 law in order to hold the bed for the resident at his or her facility.
