

SENATE No.

The Commonwealth of Massachusetts

PRESENTED BY:

O'Leary, Robert (SEN)

To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:

The undersigned legislators and/or citizens respectfully petition for the passage of the accompanying bill:

An Act relative to medical liability.

1 SECTION 1. The general court finds that:

2 (1) the current medical litigation process is inconsistent, inefficient and unfair; creating an
3 adversarial environment that discourages the open communication required to improve patient
4 safety;

5 (2) comprehensive reform is needed to redress the many failings of the current medical liability
6 system in promoting quality care, resolving medical injury cases, and compensating injured patients;

7 (3) it is the public policy of the commonwealth that improving health care quality and enhancing
8 patient safety are goals that are in the interests of both patients and health care providers;

9 (4) the impact of medical litigation on health care quality initiatives creates a compelling need for
10 law, rules, and procedures to improve the process by which medical injury cases are resolved; and

11 (5) administrative compensation programs represent an alternative for reform that can result in
12 predictable justice for patients and physicians alike, as well as a rapid resolution of claims and
13 assessment of damages;

14

15 SECTION 2. The general laws, as appearing in the 2006 official edition, are hereby amended by inserting
16 after chapter 211F the following new chapter:-

85 providers in conjunction with the Commission, and shall include compensation for both economic and
86 non-economic losses.

87 (d) Participating health care providers shall offer early mediation following disclosure of an error to a
88 patient who has been injured.

89 (e) Each eligible claim shall be submitted to an independent panel. Each panel is composed of three

93 member shall be selected at random. The commission shall determine qualifications of eligible panelists;
94 however, no person shall be qualified to serve as a panelist unless he or she has completed an approved

111 health care providers.

113 and reducing the incidence of medical errors.

115 (g) Patients shall opt in to the program prior to or at the point of care. At a minimum, the opt-in process
116 shall become an integral part of participating physician and hospitals' existing informed consent policies
117 and procedures. A patient opts in to the program by accepting a written agreement. If the patient

169 payment, the development of classes of payment events and guidance on early disclosure to patients of
170 potentially compensable events.
